## ***“The Northside”***

### ***November 2011***

#### **Mission Statement**

**To continually improve the Jacksonville business environment and quality of life in Jacksonville, while serving the best interests of our members and the North Jacksonville community.**

#### **PRESIDENT’S MESSAGE**

November 2011

Congratulations to all the new board members for 2011-2012. Off to a great start with many new ideas and energy from the group I am excited about the next year!

For a moment I digress and commend Past President Patricia Hamn and her strong leadership during her two years as president. She is a lovely lady and was an excellent representation of what NSBL is all about. Thanks to her leadership, we’ve come a long way baby!

Right now we are in the midst of the Greater Jacksonville Fair. This is a “hands on” project that brings in needed income. I appreciate Jim Fair and Stan Storey for the committed work and encourage as many of our folk to call them and participate. Our focus is to “man the booth” and “make some money”!

Our future is determined by our commitment to NSBL. We all want greater attendance at the monthly meetings, more new members and an overall spirit of enthusiasm. How do we achieve this?

Y-O-U! Yes you! Us! We make the difference. One might consider it this way; “Y” YOUNG members willing to get involved and stay involved in NSBL. “O” OPPORTUNITIES that are out there for NSBL to be a very community active organization. We can make our mark on the north side by being involved in community based projects. In the planning stages are “quarterly tours” and “involvement” with some projects already under way. “U” We must UTILIZE ALL of our talented MEMBERS and skills this next year and we will be CALLING on our membership to get involved!

Remember: YOU make a difference! Happy Thanksgiving and Be POSITIVE!

God bless you and your families!

Ray Turner

# Past Meetings

## October 11, 2011

*Ron Timonere*

*Regional Director, Business Development*

&

*Dr. Christopher Scuderi D.O.*

**Assistant Professor of Community Health and Family Medicine**

**Medical Director**

**University of Florida New Berlin Family Medicine Clinic**

We had two speakers from the Shands/UF of Jacksonville speak to our club:

The first was Ron Timonere, director of Business Development for Shands Jacksonville/UF College of Medicine, spoke to us about development of Shands/UF on the north side. He pointed out that probably this area of Jacksonville is the only area that does not have a hospital. The hospital will be built in three phases. The first is the physician practice building. The second phase is the support services like imaging and therapy centers. Third phase is a hospital with about 100 beds. The cost is about \$125 million. They will be hiring about 350 new employees. Shands/UF purchased the 70 acres of property near the River City Mall for \$9.5 million. To be granted the rights to build this hospital, Shands/UF must file a CON (Certificate of Need) with the State. Ron explained how the letters from residents and business people in the North Jacksonville area accompany this CON. He wishes to thank all our members for the letters they wrote in Shands/UF's support. The State will make a determination by December 9<sup>th</sup> of this year. If approved on that date, Shands/UF has eighteen months to break ground. This hospital will be a community private hospital, which means that not only Shands/UF physicians, but other physicians in the area can practice at this hospital.

The second speaker was Dr. Christopher Scuderi who is the Medical Director and Assistant Professor of Community Health and Family Medicine. Dr. Scuderi has a practice at 3122 New Berlin Road. Dr. Scuderi talked with us about taking care of our body through Diet, exercise, and rest. Good food is the basis of good health – you are what you eat. Suggestions from Dr. Scuderi include buying groceries from the perimeter of the grocery store. These are the fresh items and don't have the additives that are found in canned and frozen foods. He pointed out that it takes about thirty minutes for your stomach to feel that it is full. Another good point is if you don't intend to eat it, don't buy it. Most of us will eat that ice cream if we buy it. Exercise as often as you can. Exercising in the mornings sets the pace for the day. Try to find exercise you enjoy. He pointed out that the best exercise has some low impact exercise mixed in with some higher impact exercises. This emulates life and builds better stamina. Dr. Scuderi suggests that we turn off phones, computers and TV and get to exercising. People who live calmer lives with good rest tend to live longer. Get a good night's sleep. *Glenn Fowler, First VP, Fowler Accounting Services, Inc.*

## Jaguars Salsa and Onca to Celebrate

10th Birthday at the Zoo

## Greater Kudu Born at Jacksonville Zoo and Gardens

*October 7, 2011 – Jacksonville, FL – A healthy male Greater kudu calf was born at Jacksonville Zoo and Gardens on October 4, 2011, at approximately 4:00 p.m. The calf was standing about one hour after birth and began nursing shortly afterwards. This birth is the second for the dam named Dana, who was born at the Jacksonville Zoo on August 20, 2004. Kenya, the sire, arrived two years ago and was born July 15, 2002. The calf weighed 51 pounds at the neonatal exam and, weather permitting, will be on exhibit in the Zoo's Plains of East Africa beginning the weekend of October 8<sup>th</sup> and 9<sup>th</sup>. Jacksonville Zoo now has five greater kudu, including an adult male, three females and the male calf.*

Jacksonville Zoo and Garden Mammal Supervisor Dan Dembiec said, “It will be exciting to see this cute little kudu grow from a lanky 51 pound calf into a handsome 600 to 700 pound spirally-horned beast, right before Jacksonville’s eyes.”

The kudu is a large antelope with fawn coloring and thin, white, sparse vertical stripes. Greater kudu (*Tragelaphus strepsiceros*), may be distinguished from a similar species, Lesser kudu, (*Tragelaphus imberbis*) by presence of a throat mane. Males have long, black spiral-shaped horns; however, females do not have horns. They grow to be approximately four-to-five feet tall and weigh between 495 and 787 pounds. In the wild, kudu can be found throughout Southern and Eastern Africa as far north as Ethiopia. They are one of the largest antelope species and produce one of the loudest sounds, a gruff bark.

Please remember to pass important events, and information along to us to share with the members. This is your Newsletter and we want to make it about you.

*Happy Thanksgiving!*

SEE YOU NEXT MONTH!
